MoneySimpler has announced the launch of its new **Web3 App**, supporting trading in **gold, cryptocurrency, and stock markets**. It incorporates **AI automation technology** to provide

users with a smarter and more convenient digital financial experience.

With the rapid development of **Web3, artificial intelligence, and digital finance**, user demand for **one-stop platforms** across markets is growing. Traditional trading tools are often complex and time-consuming.

MoneySimpler's new Web3 App, through **technological integration** and **process simplification**, helps users easily access diversified markets, lowers the barrier to entry, and improves investment efficiency.

Supports Diverse Financial Markets

MoneySimpler's new Web3 app integrates **gold, cryptocurrency, and stock market trading** in one place, allowing users to explore different financial markets on a unified platform.

Compared to the traditional approach of switching between multiple platforms, the new application integrates **multi-market functionality** through an **intuitive digital interface**. Users can freely choose according to their needs without frequently switching tools, resulting in a more efficient and convenient user experience.

MoneySimpler Web3 Application Core Advantages

Multi-Market Integration: One-stop support for trading in **gold, cryptocurrency, and stock markets**.

AI-Powered Intelligent Trading: **Quantitative** models and **automated tools** enhance trading efficiency.

Simplified Operation: **Intuitive interface design, no-code operation**, one-click trading starts, lowering the barrier to entry.

Daily Rewards: Users can receive **free rewards daily**.

Security Protection: Employs multiple **encryption** and **risk control mechanisms** to ensure transaction security.

Daily Rewards Program

MoneySimpler's new Web3 app has launched a **daily rewards program**. New users who register on MoneySimpler will receive a **free \$50 trial fund** and a **\$10 new user bonus**. After registration,

simply **log in daily** to continue receiving daily rewards.
